Jay

We will get back to you on dates that the CPG team is available to meet with the Department's Team based on the dates that you proposed.

Thank you.

Mr. Law, I understand you would like to submit your report to the EPA by 11/16; however, due to schedules, we cannot get all the necessary people until after November 14 (and availability is still uncertain). Can we schedule this meeting after 11/16, in order to get all the necessary individuals? Jay

Subject: RM 10.9 Discussion

Suzanne and Jay:

Please let me know when it would appropriate to set up a meeting or teleconference to discuss the permitting requirements for the RM 10.9 Removal Action. I assume that the Department is focused on the Post-Sandy Response. We have received responses from Cashman and Clean Earth on stabilization of RM 10.9 sediments.

The current plan is that we will be submitting a pre-final design submission to EPA on November 16. So an opportunity if possible to talk with you in advance of this would be beneficial.

Thank you.
